Re: 64548

Orofino, Idaho.

Dear Doctor:

We are writing with reference to the death certificate of GEORGE T. HOWARD who died January 4th, 1929. Will you kindly advise whether he was

SINGLE, MARRIED, WIDOWED or DIVORCED?

You also state as the contributory cause of death:

Will you kindly advise the cause of the Septicemia? Copies of our death certificates are sent to the Census Bureau at Washington and we are required to get all information in order that proper classification may be made as to the cause of death.

An addressed stamped envelope is enclosed for your convenience in making reply.

Respectfully yours,

C. K. Macey

AUG 14 1963

MAY 10 1977

A stillbirth must be registered both as a birth and a death. The date of death should be the date of delivery and the death certificate should further state, if known, the cause of the stillbirth and the period of utero gestation in months.

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. The question applies to each and every person, irrespective of age. For many occupations a single word or term on the first line will be sufficient, e. g., **Farmer, Physician, Stenographer, Compositor, Architect, Locomotive engineer, Civil engineer, Stationary fireman, etc.** But in many cases, especially in industrial employments, it is necessary to know (a) the kind of work and also (b) the nature of the business or industry, and therefore an additional line is provided for the latter statement; it should be used only when needed. As examples: **(a) Spinner, (b) Cotton Mill; (a) Salesman, (b) Grocery; (a) Foreman, (b) Automobile factory.** The material worked on may form part of the second statement. Never return "Laborer," "Foreman," "Manager," "Dealer, etc., without more precise specifications, as **Day laborer, Farm laborer, Laborer—Coal mine, etc.** Women at home, who are engaged in the duties of the household only (not paid **Housekeepers,** who receive a definite salary), may be entered as **Housewife, Housework,** or **At home,** and children, not gainfully employed, as **At school** or **At home.** If the occupation has been changed or given up on account of the DISEASE CAUSING DEATH, state occupation at beginning of illness. If retired from business that fact may be indicated thus: **Farmer (retired 6 yrs.)** For persons who have no occupation whatever, write **None.**

STATEMENT OF CAUSE OF DEATH—Name, first the DISEASE CAUSING DEATH (the primary affection with respect to time and causation), using always the same accepted term for the same disease. Examples: **Cerebrospinal fever** (the only definite synonym is "Epidemic cerebrospinal meningitis"); **Diphtheria** (avoid use of "Croup"); **Typhoid fever** (never report "Typhoid Pneumonia") **Lobar pneumonia; Bronchopneumonia** ("Pneumonia," unqualified, is indefinite); **Tuberculosis of lungs, meninges, peritoneum,** etc., **Carcinoma, Carcoma,** etc., of .....(name origin; "Cancer' is less definite; avoid use of "Tumor" for malignant neoplasms; **Measles; Whooping cough; Chronic valvular heart disease; Chronic interstitial nephritis,** etc. The contributory (secondary or intercurrent affection need not be stated unless important. Examples: **Measles** (disease causing death), **29 ds.; Bronchopneumonia** (secondary), **10 ds.** Never report mere symptoms or terminal conditions, such as "Asthenia," "Anaemia" (merely symptomatic), "Atrophy," "Collapse," "Coma," "Convulsions," "Debility," ("Congental," "Senile," etc.), "Dropsy," "Exhaustion," "Heart Failure," "Hemorrhage," "Inanition," "Marasmus," "Old age," "Shock," "Uraemia," "Weakness," etc., when a definite disease can be ascertained as the cause. Always qualify as "PUERPERAL **septicemia,**" "PUERPERAL **peritonitis,**" etc. all diseases resulting from childbirth or miscarriage. State cause for which surgical operation was undertaken. For VIOLENT DEATHS state MEANS OF INJURY and qualify as ACCIDENTAL, SUICIDAL, or HOMICIDAL, or as **probably** such, if impossible to determine definitely. Examples: **Accidental drowning; struck by railway train—accident; Revolver wound of head—homicide; Poisoned by carbolic acid—probably suicide.** The nature of the injury, as fracture of skull, and consequences (e. g. **sepsis, tetanus**) may be stated under the head of "Contributory."

Dr. F. W. MacManus,

Buhl, Idaho. Re: 65083

Dear Doctor:

You gave as the cause of death of Thomas Baldwin who died January 9, 1929, as "Arsenic Poisoning".

Was this ACCIDENTAL, SUICIDAL OR HOMICIDAL?

An addressed stamped envelope is enclosed for your convenience in returning this letter with the desired information.

Respectfully yours,

C. K. Macey

C. K. Macey,
State Registrar.

Mr. C. R. Macey,
Boise, Idaho.

Dear Sir:-Mr. Homer Saxon of Twin Falls found the arsenic in his stomach which I had removed from the body acting under instructions from the Coroner, myself voicing the opinion that, things did not appear just right. It may have been suicidal but I have serious doubts. The police have claimed to be working on the case but to date, have failed to produce.

Yours Truly, F. W. MacManus
